Waldie's Literary Omnibus Novel and Important Literary Enterprise!!

MUYELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, RE-VIEWS, AND THE KEWS OF THE DAY. T was one of the great objects of 'Waldie's Library,

oto make good reading cheaper, and to bring litera-ture to every man's door. That object has been ac-complished; we have given to books wings, and they have flown to the attermost parts of our vast continent carrying society to the secluded, occupation to the lite-rary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than two fold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than four cents a week, and to add as a piquant seasoning to the dish a few columns of shorter literary matter, and a summary of the news and events of the day. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to alm at offering to an increasing literary appetite that mental food which it craves.

that mental food which it craves.

The Scheet Circulating Library, now as ever so great a favorite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also filled it in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also filled it in the first several departments of Novels, Tales, Voyages, Tavels, &c., select in their character-joined with reading such as usually should fill a weekly in the first method we hope to accomplish a great good; to enliver and enlighten the family circle, and to give it, at an expense which shall be no consideration to any, a mass of reading that in the normal consideration to any, a mass of reading that in the sound of the largest greater of the power of concentration can no farther for. We hope to have the proposition of the published in the Omnibus, which will be an entirely distinct periodical.

Gradually a desire for more solid reading increased in socie ty and that which originally began in the hope of nunseacont was continued in the wish for information. Useful matter was published at a comparatively cheap rate, it was continually in-creasing, yet the expense was burdly felt. Encouraged by his success, the enterprising publisher began to insert new matter ha

Were Constable's Miscellary current in the United States pethaps the publisher of the present series would not have found it expedient to commence the latter work. But, be it remembered, that in a eaking of the cheapness of Constable it is but relatively—as compared with the publications in Great Britain generally—which is dearer than that of any part of the world. Constable's Miscellary is published at about halt the English rate, but the present work proposes to be at about one third even of Constable.

The object then of Faster's Cabinet Miscellany may be easily explained. It is to introduce to the rending public, a series of works that shall blend entertainment with information—that works that short been constrainment with information—that shall take off the edge of the voracious appet to for mere fiction, which has been brought on by too great a profusion of works of that description—that shall gradually form a collection of writings which may be referred to with satisfaction at some future day, or to compare with a more recent writer; that may be an ornament to any private library or collection; and that shall be observed than over him been issued. cheaper than ever has been issued.

The works collected into Foster's Cabinet Miscellany, will be in every range of polite literature. It is intended to suit, as much as possible, every taste, and by an agreeable variety of subjects as well as styles, to keep up a healthy excitement for rational entertainment.

Works of great length, of severe and subjects as well as styles, to keep up a nearmy excitement for rational entertainment.

JOB WORK, NEATLY EXECUTED AT THIS OFFICE.

Supplement to the Globe. Prospectus of the Congressional Globe and Appendix.

TROM the experiment we have made it is ascertained that the patronage of the country will support our annual publication of the proceeding and speeches made in Congress. We therefore propose to prosecute the design and confidently hope to improve and perfect it. In giving, from week to week, a succinct and clear report of the proceedings of both branches of Congress—a brief and condensed report of the substance of the remarks of each speaker, using the precise words upon the main points touched—the yeas and nays on all important questions, and concluding the volume after the adjournment, with an Index for reference, a great deal was done towards giving an accurate parliamentary history of the proceedings of one of the greatest and ablest representative assemblies in the world; an assembly on the deliberations of which the destines of the free institutions of this sountry days their neglecters and tions of this country depend for their maintenance; and therefore, in some degree, freedom throughout the world Our original plan extended no further than this epitome of the debates, with the proceedings; but at the last season we added an Appendix, to contain all the fully reported speeches, as prepared by the speakers themselves for publication. This extended the work from a single rotume of 322 royal quarto pages, to two volums, making, together, 1184 royal quarto pages. These we have furnished to subscribers at the price of one dollar for each volume, both or either to be furnished, through the mail, as they fall from the press in sheets, and chargeable only with newspaper postage, varying from a cent to a central a half a sheet. volume of 342 royal quarto pages, to two volums, mak-

This we hold to be the cheapest work ever published whether the labor and expanse of getting it up be considered, or the value of it to the present or future gene-rations. The leading men of all parties in every State in the Union concentrate in the speeches of each session of Congress, the mind, the information, and the feelings of every portion of our country. The political history of the country, for the time being, is not only spoken and written out in Congress, at each session, but the designs of every party, or fragment of a party, are developed, and the future tendency of the government itself laid open. Thus, independently of the interest which every man must feel in the real business transacted in every man must teel in the real business transacted in Congress, all who would understand any thing of the political career of the government, should be provided with the embodied views of the leading statesmen of all parties, on all subjects, which engages the attention of Congress, and which is tendered to them in this Pros-

In our last week's paper we commenced some remarks on some articles that have recently appeared in the Eastern Republican, relative to the control exercised over the Banks in this State by the allied Banks in Boston, We intended to have added that we have not sufficiently attended to the details of banking to be fully assured that, this Suffolk influence is wholly injurious to this State or whether it affects the Banks rather than the people. We do not know that it is beneficial to rither, & if it is not, it is humiliating that we should submit to it. The length of the articles in question and the little interest that is felt in this county has hitherto deterred us from publishing them. Falsehood and treachery pervade The spot where trade her seat maintains, And crafts the human soul degrade, Unknown amid the woods and plains-Man on the mountain tops may stand, From social vices nobly free, Nor see the curse that blights the land-The hills-the hills for me!

Where'er I turn-where'er I gaze, Some touch of mystery meets the eye, And pride and folly's altars blaze With victims they have caused to die-The heart will sicken at the sight Of many ills it needs must see-And longs to take a lasting flight-The hills—the hills for me! Who would forego the rapturous joys

That nature to the soul can bring, For all the riot that destroys The brightest gloss on pleasure's wing? Who would in fashion's heartless chain, Enthral a soul by nature free, When freedom walks the upland plain? The hills—the hills for me!

There morning opens her dewy eye O'er fields, where every floweret vies In offering to the summer sky Odours that breathe of paradise; The glow of pure and fresh delight Is seen in every verdant tree; O! forest scenes are always bright-The hills—the hills for me!

The voice of liberty is heard In every river's rushing fall,-It warbles with the sportive bind, And echoes to the eagle's call. The grove speaks soft its mystic tone. When winds sweep by in summer glee: O! freedom loves her mountain throne-The hills—the hills for me !

'Twere sweet, my friend, to wander far With thee, beyond the haunts of men, And hail the evenings princely star, As hunters of the woodland glen-The mental brightness of thine eye, In liberty's full blaze to see, And hear thee raise the exulting cry, The hills—the hills for me!

To art's proud temples then farewell! To scenes of busy toil adicu! The wilderness no tale can tell Of wretchedness and wrong like you,-Beneath your sway the mint must roa Debased-degraded-all but free-The wild wood walks are man's true home-The hills-the hills for me!
